Rich Weit was born and raised in Rochester, New York. He attended Keuka College to earn a Biology degree and during his studies he registered as an art minor. He found that his passion for art grew stronger with every opportunity of creation and expression. Within a short amount of time Rich was able to identify that his true passion and happiness came within the forms of art and photography.

Rich wanted to further his education within the art and continued on to earn an Associates Degree from Finger Lakes Community College in graphic design. Rich is enthusiastic and determined to grow as an artist everyday and will continue to learn every chance that he gets.
